Cyprus is the largest island in the Mediterranean and is situated at the crossroads of three continents (Africa, Asia and Europe). The rich history of the island has given it a truly distinctive and unique character. Cyprus has many interesting historical and cultural attractions.

Paphos is home to a number of important historical sites, including "Tombs of the Kings" - an underground series of tombs dating from the 4th Century B.C. The famous archaeological site of the 'Paphos Mosaics' is an area of noblemen's villas dating from the 3rd to the 5th Century A.D.

Located opposite the Aphrodite Hills Resort is the famous birthplace of Aphrodite. Accordingly to legend, a Greek mythical hero threw a large rock in to the sea to destroy the Saracen ships. Today, this rock still stands and is called "Petra tou Romiou". Kouklia village is situated next to the Resort, where you can visit the Aphrodite's Temple. According to Greek mythology, the goddess of love and beauty appeared here.

Cyprus also offers natural areas of outstanding beauty such as the Akamas Peninsula. You can also visit the Troodos mountains, the largest mountain range in Cyprus located in the centre of the island. The highest peak is 'Mount Olympus' standing at 1.952 metres.
